TOEFL®ITP
REMOTO

ESTRUTURA FÍSICA

- **Hardware requirements**
 - 512 MB de memória livre (recomendável 1GB)
 - 100 MB de espaço livre em disco
 - Intel Core i3 ou acima;
 - Headsets com bom isolamento acústico (headsets “gamers” costumam atender esse requisito). Não é autorizado o uso de aparelhos com conexão Bluetooth, pois o mesmo pode causar interferência e apresentar falhas durante o teste.
 - Webcam (não é permitido o uso do celular como webcam)
 - Monitor – mínimo monitor de 14’ com resolução mínima de 1024x768

- **Sistema operacional**
 - Windows 10 (recomendado) ou Windows 11
 - MAC OS X 10. 11 ou acima.

- **Browsers**
 - Windows: **Microsoft EDGE**
 - Mac: **Safari**

Para iniciar e executar o **TOEFL® Program Secure Browser** o Windows deve estar conectado com uma conta de usuário com direitos de administrador no computador.

- **Internet e network**
 - 128 kbps ou acima
 - A conexão deve ser estável para evitar interrupções durante o teste. Tenha uma conexão de internet forte e estável. Se possível use conexão a cabo ou WI-FI bem próximo ao roteador.

System Check

Run the System Check to identify potential issues with this device or Internet connection. This check also verifies this device meets the minimum system requirements needed to run the test.

Run System Check

Evaluate Network

Launch the Test Simulation on multiple devices at the same time to simulate the network traffic of several test takers at your institution. We recommend coordinating the verification process with your IT staff so they can monitor network performance during the exercise.

Run Test Simulation

Advanced Readiness and Troubleshooting

Test Delivery Check

Run the Test Delivery Check to take a test. This test includes samples of each question type to verify this device will deliver the test.

Bandwidth Check

Run the Bandwidth Check to sample your Internet connection speeds over a period of time to see how your available bandwidth fluctuates throughout the day.

Uma vez que a verificação tenha terminado, revise os resultados para garantir que você possa executar o Secure Browser.

Salve o relatório de verificação clicando em “**DOWNLOAD**” localizado na parte superior direita na tela de resultado.

Secure Browser for Windows

Secure Browser for Windows

The Windows Secure Browser is a locked-down version of an internet browser that prohibits access to other applications during testing. This Secure Browser is installed and can be run from a network drive, allowing it to be used from multiple computers. Administrative privileges are not required to run the Secure Browser.

Download on Windows

1. Select the **Download** button located underneath these instructions.
2. Depending on your browser settings, the Secure Browser file will download in one of the following ways:
 - o The file will automatically download to the default location, typically your desktop or **Downloads** folder.
 - o You will be prompted to run or save the file. Select **Save**. The file will download to the default location.
3. Double-click the **Secure Browser** icon or file name to open the Secure Browser.
4. You may receive the following Security Warning: "Do you want to run this file?" Select **Run**.

Download

ClickOnce Secure Browser for Windows

The ClickOnce Secure Browser is a locked-down version of an internet browser that prohibits access to other applications during testing. This Secure Browser is installed on all devices that will be used for testing. Install the Secure Browser by downloading the provided install file. Administrative rights are not required.

Secure Browser for MAC

Secure Browser for Mac

The Secure Browser is a locked down version of an internet browser that does not allow access to any other applications. If you are installing the Secure Browser for all users, drag the Secure Browser to your applications folder. If you are not logged in as an administrator, you will need to authenticate using an administrator's username and password. You may need to get this information from your Macintosh computer administrator.

Hide Instructions

1. Click the "Download" button.
2. Your web browser will download the file to the default location (usually the desktop).
3. If your computer does not automatically unzip the file, double click the downloaded file to decompress the Secure Browser.
4. You may launch the file from the desktop.

Clique no cadeadinho azul para abrir o programa e fazer o “At Home” System Check

The screenshot shows the ETS website interface. On the left, there are two selection boxes: 'I'm taking the test in a classroom.' with a 'Start My Classroom Test' button, and 'I'm taking the test at home.' with a 'Start My At Home Test' button. On the right, under the heading 'The TOEFL® Family of Assessments', there are three test options: 'The TOEFL ITP® Tests' (ages 16+), 'The TOEFL Junior® Tests' (ages 11+), and 'The TOEFL Primary® Tests' (ages 8+). Below these options, there are two links: 'Check Audio and Microphone' and ''At Home' System Check'. A large red arrow points to the ''At Home' System Check' link. The ETS logo is in the top left corner, and a 'Close X' button is in the top right corner. The footer contains copyright information for Educational Testing Service and Internet Testing Systems, LLC.
